ⓘ CAUTION – Must Be Installed By A Licensed Electrician

Please read instruction manual on **both** sides carefully before installing luminaire.

- Please read instructions for installation of luminaire provided below. Safety of this luminaire and warranty will be voided unless followed.
- Installation and operation of this luminaire must be within accordance with national safety regulations. Unios™ does not warrant any liability when damage is caused by misuse or improper installation.
- This luminaire is void of warranty if any part has been modified. Please visit unios.com/warranty for more information.
- Over-voltage protection units should be installed to prevent electronic control gear from failing due to electrical spikes, e.g. from switching of inductive loads.

Figure 1: Single Circuit

Figure 2: Three Circuit

Installation Instructions

- 1** Must be installed by a licensed electrician.
- 2** Before installing, make sure the power supply is switched off.
- 3** Follow steps A (Single Circuit) or B (Three Circuit) on the right for installation.
- 4** Adjust head(s) to desired position(s). Turn on power supply to complete installation.

- A** For Single Circuit installation, follow the steps in Figure 1:
- Rotate the switch to the OFF position.
 - Move the side switch to the B position (pictured).
 - Insert the adaptor to the track.
 - Move the side switch to the D position (pictured)
 - Rotate the switch to the ON position on the track.
- B** For Three Circuit installation, follow the steps in Figure 2:
- Rotate the switch to the 0 position.
 - Move the side switch to the B position.
 - Insert the adaptor to the track.
 - Move the side switch to the D position.
 - Rotate the switch to the desired circuit channel.

Wiring

This luminaire must be installed in conjunction with electronic control gear (Built-in).

Dimming

This luminaire can be dimmed. Unios™ recommends a phase-cut dimmer optimised for LED technology.

Cleaning

Before cleaning, disconnect from mains supply and allow luminaire to cool.

Regular cleaning of the luminaire is **strongly recommended**. In harsher conditions, it is recommended that a strict cleaning schedule is in place to ensure no eroding chemicals are left on the surface for long periods. To clean luminaire, only use a damp, microfibre cloth. A dilute solution of a mild pH-neutral liquid detergent can be used for resistant dirt (Solvents must not be used). Please note surface of luminaire must be wiped down with a clean damp microfibre cloth to ensure no residue is left on the surface. Take care not to damage the surface of the luminaire. Do not use high pressure cleaners.

Cleaning of Luminaire Lens

The luminaire lens or glass can be cleaned with glass specific cleaning agents that are ph-neutral, alcohol-free and non-abrasive. Always use a damp microfibre cloth and take care not to damage any seals surrounding the glass.

Class I

Luminaire in which protection against electric shock does not rely on basic insulation only, but which requires conductive parts to be connected a protective earthing conductor.

IP20

Protected against solid bodies no larger than 12.5mm and no protection against moisture or liquids.

AC

220-240V 50-60Hz AC Supply.

Indoor Use

This luminaire is suitable for indoor use only.
